Il rivestimento è realizzato in P.V.D. (Physical Vapor Deposition). Questa tecnologia ha origini nel campo spaziale per aumentare la resistenza dei pannelli esterni delle navicelle spaziali e nella gioielleria. Grazie alla collaborazione con primarie università italiane, siamo la prima azienda ad applicare queste finiture di diverse tonalità di colore. Le caratteristiche delle finiture sono idonee all'utilizzo nel settore alberghiero, nel campo della ristorazione.

The surface treatment is a P.V.D. process (Physical Vapour Deposition) This technology was developed for the aeronautic industry and is used to shield NASA's Space Shuttle panels against corrosion and to protect fine jewelry. In co-operation with renowned Italian Universities we were the first to apply

these treatments in order to achieve original color tonalities. The characteristics of these treatments are hard wearing and hospitality grade - ideal for distinctive hotels, restaurants and catering services.

Die Oberflächenbehandlung des Bestecks ist ein P.V.D. Prozess (Physikalisches Dampf-Absetzungsverfahren).

Diese Technologie ist für die Raumfahrtindustrie entwickelt worden und wird dazu benötigt, die stark beanspruchten Flügel von Weltraumfähren widerstandsfähiger zu machen, aber auch für hochwertigen Schmuck und wertvolle Armbanduhren.

In Kooperation mit Forschungsabteilungen italienischer Hochschulen und Universitäten haben wir innovative Verfahren entwickelt, die es ermöglichen, nie dagewesene Farbtöne für Bestecke und Edelstahlaccessoires zu erreichen. Die widerstandsfähigen und hygienischen Eigenschaften bleiben.

Arch. Katja Bremkamp

The asymmetrical and rather unfamiliar shape of this cutlery range was influenced by the way we handle certain situations relating to the table routine. I was looking at the movements of the hands when dishing food out of bowls, when serving onto a plate and how this movement alters when food is conveyed into the mouth. Each piece reflects these movements individually, referring to their purposes and their "actions", as some pieces are more asymmetrical than others. The overall asymmetrical shape of this range therefore supports the comfortable handling of cutlery and also acts as guide to the person who is using it.

La forma asimmetrica e non convenzionale di questo modello è stata influenzata dall'osservazione dei comportamenti e delle routine legate al consumo del cibo a tavola. Ho guardato i movimenti delle mani durante la disposizione del cibo sul piatto, la raccolta del boccone e l'accompagnamento alla bocca. Ogni pezzo riflette individualmente questi movimenti, riferendosi al loro scopo e alle loro azioni; questo spiega il motivo per cui alcuni pezzi sono più asimmetrici di altri. Oltretutto, l'asimmetria di questa linea avvantaggia la maneggevolezza della posata in modo da guidare la persona che la usa.

Le nostre ampolle sono il sistema più igienico di versare le arachidi perché si evita di mettere le mani nel contenitore
Our glass bottles can be used to serve peanuts hygienically and without hand contact
Notre bouteille en verre est le système le plus hygiénique et pratique pour verser les arachides et éviter de mettre les mains dans le contenitor
Unsere formschöne Glaskaraffe eignet sich auch bestens als alternativer Spender für Erdnüsse. Eine Einladung für die Gäste, die die Erdnüsse nunmehr bequem dosieren können; somit wird ein direkter Kontakt mit den Fingern vermieden
Nuestras jarras tienen el sistema mas higiénico, de verter los cacahuetes, porque se evita meter las manos en el recipiente
